Thus, for the outsider, The Encyclopedia of Japanese Pop Culture is an insider's guide to post-war Japan. Not content to simply catalog his entries, Schilling provides real depth and analysis in his articles, opening up Japan's rich pop heritage to the world at large.

Mark Schilling's Encyclopedia of Japanese Pop Culture is a remarkably enjoyable and remarkably useful and informative book. Schilling has every reason not to cover everything under the sun, and instead provides entries for only the most significant and representative icons and moments of pop culture.

Thus, for the outsider, The Encyclopedia of Japanese Pop Culture is an insider's guide to post-war Japan. Not content to simply catalog his entries, Schilling provides real depth and analysis in his articles, opening up Japan's rich pop heritage to the world at large. Over seventy entries cover Japanese pop culture from 1945 to the present, covering music, comedy, fads, popular media, and all aspects which have fueled Japanese popular culture over the decades. From publisher description.

Encyclopedia Of Japanese Pop Culture

Japanese popular culture - Wikipedia

Japanese popular culture includes Japanese cinema, cuisine, television programs, anime, manga, video games and music, all of which retain older artistic and literary traditions, and many of their themes and styles of presentation can be traced to traditional art forms. Contemporary forms of popular culture, much like the traditional forms, are not only forms of entertainment but also aspects to distinguish contemporary Japan from the rest of the modern world. There is a large industry of music.

Nicholas Groom's The 500 The Encyclopedia of Japanese Pop Culture would tend to suggest a voluminous, encompassing text covering the spectrum of Japanese entertainment. Let's get this out of the way right now: Mark Schilling's book is not that comprehensive, which he readily admits in the introduction.
